

# Catterall Treasure Trail

See if you can spy any of these around the village; some things are in more than one place and photos are not in order. Walk the route and spy as many as you can. Tick them off as you find them. Also look out for 3 hidden dinosaur rocks in the gabion seat (one is in a photo below). The gabion seat (metal grid box with a wooden top) is near the daisy shaped planter on Stone Cross Gardens.

Also see if you can spot any of these?

A leaf

A rock or pebble

An insect

A snail

A feather

A pine cone

A cat

A twig

A flower

Route:

Walk past the cart on Garstang Road with it on your right, then turn left up Cock Robin Lane. Turn right up Stone Cross Gardens, past the pebble mediterranean garden on the right and then into the public garden area on the left (marked with a welcome post). Now return to Cock Robin Lane, turn left and then left again past War Memorial to Queen Elizabeth Park. Walk around the park. Do over more than one day if too far for little legs.
